

ENRICIA TORRES SAMONTE

IT Professional | Computer Programmer

enriciasamonte2014@gmail.com | +63 968 277 8655 | <https://www.decitsolutions.com>

PROFILE

Senior IT and Full Stack Developer with over seven years of experience designing, building, and maintaining secure, high-performance systems. Strong background in backend development, DevOps, cloud infrastructure, and API integrations. Experienced in MVP development, Meta API integrations, and operating production systems on Apache CloudStack. Or AWS. Comfortable working remotely and starting immediately.

SKILLS

Programming Languages: Python, Java, Node.js, Go, PHP, JavaScript, C#, Bash/Sh, Clojure, Ruby, Perl, Scala, Haskell, C++, Objective-C

Web Technologies: HTML, CSS, jQuery

Databases & Storage: SQL, NoSQL, PostgreSQL, MySQL, SQLite, MSSQL, MS Access, MongoDB, Redis, RRDTool, TextFile Database

Frameworks & CMS: Laravel, Phalcon, WordPress, Drupal, React.js, Express.js

DevOps & Tools: Git, SSH, Bash, Supervisor, Log Monitoring

Cloud & Servers: Cloud Infrastructure, Full-Stack Server Administration, NGINX, Apache, HAProxy, VPN, Deployment Automation

Operating Systems: Linux, Unix, FreeBSD, Ubuntu, CentOS, Debian, macOS, Windows

Networking & Security: IPFW, UFW, PF, IPTables

Authentication & Security: Authentication Flows, Role-Based Access, 2FA via Email or SMS (Twilio-ready), Secure API Design

APIs & Deployment: REST APIs, Webhooks, Meta (Facebook) API Integration & Approval Process, Vercel Deployment

State Management: React Context API, Redux Toolkit

Messaging & Collaboration Platforms: RocketChat, Matrix Synapse

Mobile & Game Development: Android, iOS, Unity

CERTIFICATION

- SAP Business One
- Microsoft Office Specialist
- TESDA NCII – Computer Hardware Servicing
- TESDA NCII – Agricultural Crops Production

PROFESSIONAL EXPERIENCE

PROGRAMMER / Full-Stack Engineer

Emerald Pedestal Properties Inc. | 2018-2025 (Remote)

- Designed, developed, and maintained backend services and web applications using PHP, Node.js, JavaScript, and Express.js, supporting production systems and MVP-level projects.
- Developed frontend components and state management with React.js, React Context API, and Redux Toolkit for responsive web applications.
- Integrated third-party APIs including Meta (Facebook) API, managing documentation, permissions, and approval processes.
- Managed full-stack cloud infrastructure on Linux/Unix servers, ensuring high availability, load balancing, and monitoring dashboards.
- Implemented authentication flows, role-based access, and 2FA via email/SMS (Twilio-ready) for secure applications.
- Monitored server and application performance, proactively responding to alerts to maintain uptime and reliability.
- Customized and extended open-source frameworks including Matrix Synapse, Flask, Falcon, Laravel, Twisted, Express.js to meet specific project needs.
- Collaborated with a remote/global team, managing multiple projects and delivering production-ready MVPs on time.

PROGRAMMER / Backend Developer

Loki Technology, Inc. | 2015-2018

- Developed and maintained PHP backend systems for dynamic, database-driven websites using MySQL and PostgreSQL.

- Designed and implemented backend solutions aligned with project requirements, ensuring scalability, performance, and data integrity.
- Customized and extended open-source applications including WordPress, Drupal, Node.js services, FreeStyle Wiki, and RocketChat.
- Worked with multiple backend frameworks such as Phalcon, Laravel, Flask, Django, Twisted, and Express to deliver versatile solutions.
- Applied functional and multi-paradigm programming approaches using Clojure, Python, Haskell, and Scala where appropriate.
- Monitored project progress, tracked deliverables, and reported updates to management to ensure timely delivery.
- Managed and maintained VPN services (OpenVPN, L2TP/IPsec, PPTP), ensuring secure and reliable system connectivity.

IT Administrator

Kedica Philippines Corporation / 2011-2015

- Installed and configured SAP software, performing validation testing to ensure accuracy in transactions and reports.
- Conducted system backups and preventive maintenance to prevent downtime and data loss.
- Handled procurement processes, managed vendor relations, and ensured timely deliveries.
- Maintained inventory records and ensured compliance with PEZA purchasing standards.

EDUCATION

Bachelor of Science in Information Technology

College of the Immaculate Conception / 2007–2011
