

ENRICIA TORRES SAMONTE

Infrastructure Support Engineer | Linux System Administrator

enriciasamonte2014@gmail.com | +63 949 8100 557 | <https://www.decitsolutions.com>

PROFILE

IT Infrastructure and Operations Professional with 7+ years of experience in Linux server administration, network management, cloud infrastructure, and technical support. Skilled in deploying and maintaining web servers, configuring firewalls, troubleshooting systems, and supporting business-critical applications across Linux and Windows environments.

Experienced in both technical operations and quality assurance leadership, with a strong background in process improvement, KPI management, and cross-functional coordination. Proven ability to resolve complex technical issues, improve operational efficiency, and maintain reliable IT services in fast-paced environments.

CORE COMPETENCIES

Linux Administration • Infrastructure Support • Server Management • Network Troubleshooting • Firewall Configuration • System Hardening • Cloud Infrastructure • Technical Support • Process Improvement

SKILLS

- Cloud & Infrastructure: Apache CloudStack, HAProxy, NGINX, Apache HTTP Server
- Firewall Management : NTtables,pf,UFW
- Server & Networking: Server setup, firewall configuration, IP routing, network tuning, OpenVPN, system hardening, log management
- Systems & Databases: SAP Business One, MySQL, PostgreSQL, SQLite, MS Access
- Operating Systems: Linux (Ubuntu, CentOS, Debian), FreeBSD, Windows, macOS
- Tools & DevOps: Git, SSH, Bash scripting, Supervisor, Cron jobs, log rotation
- Languages & Frameworks: Python, PHP, Laravel, Phalcon, Dart, Flutter, JavaScript, HTML, CSS, Django, Visual Basic
- Networking: WAN/LAN, CCTV installation and monitoring

TECHNICAL PROJECTS

Self-Hosted Infrastructure Environment

- Deployed and maintained Linux-based web infrastructure using NGINX, HAProxy, and Apache HTTP Server.
- Configured firewall security, SSH hardening, and centralized log monitoring.
- Managed MediaWiki hosting environment, database backups, and server maintenance.
- Implemented reverse proxy and load balancing configurations for improved availability and traffic handling.
- Performed troubleshooting, uptime monitoring, and performance tuning for web services.

PROFESSIONAL EXPERIENCE

Computer Programmer (Remote)

Emerald Pedestal Properties Inc. | 2022 – Present

- Managed server setups, configurations, and ongoing maintenance to ensure system stability and reliable deployments.
- Performed pre-release testing, data migration validation, and backups to ensure accuracy and reliability.
- Maintained and monitored multiple Linux production servers supporting internal business applications and services.
- Contributed to mobile app development by testing features for functionality, usability, and bug-free performance.

Network Management Manager

PH Global Jet Express Inc. - J&T Express | 2022

- Led quality assurance initiatives to prevent operational issues by ensuring strict compliance with SOPs and service-level agreements.
- Analyzed performance data to identify risks before they became problems, introducing preventive measures that improved branch KPIs.
- Directed process improvements in delivery, shipping, returns, and damage handling to consistently meet KPIs.
- Produced detailed reports highlighting performance trends, root causes of issues, and corrective action during management meetings.

- Managed franchise acquisition evaluations, ensuring operational readiness before onboarding.
- Collaborated with cross-functional teams to optimize workflows and maintain consistent service quality.

QA/Quality Control Supervisor

PH Global Jet Express Inc. - J&T Express | 2019 – 2022

- Oversaw quality control processes across multiple distribution centers to ensure operational and service accuracy.
- Conducted operational audits across 20+ branches to improve delivery accuracy and KPI compliance.
- Facilitated team training to ensure updated processes were followed consistently.
- Supported struggling branches by resolving operational bottlenecks and reinforcing quality standards.
- Collaborated with management to identify recurring issues, test process changes, and measure results.
- Developed and presented comprehensive reports on KPIs and improvement strategies.
- Led team meetings to align goals, review performance results, and drive continuous improvement.

IT Associate

PH Global Jet Express Inc. - J&T Express | 2018

- Installed and configured IT systems, verifying software and hardware readiness before deployment.
- Monitored CCTV systems for operational integrity and security compliance.
- Maintained IT inventory and ensured consistent functionality through preventive maintenance and testing.
- Conducted regular site visits for hands-on support.

IT Administrator / Purchaser

Kedica Philippines Corporation | 2015 – 2017

- Installed and configured SAP software, performing validation testing to ensure accuracy in transactions and reports.
- Conducted system backups and preventive maintenance to prevent downtime and data loss.
- Handled procurement processes, managed vendor relations, and ensured timely deliveries.
- Maintained inventory records and ensured compliance with PEZA purchasing standards.

College Part-Time Teacher (Computer)

College of the Immaculate Conception | 2013

- Delivered computer-related subjects with emphasis on software and system usage best practices.

CERTIFICATION

- Microsoft Office Specialist
- TESDA NCII – Computer Hardware Servicing
- TESDA NCII – Agricultural Crops Production

EDUCATION

Bachelor of Science in Information Technology

College of the Immaculate Conception | 2007 – 2011
