

ENRICIA TORRES SAMONTE

IT Professional | Computer Programmer

enriciasamonte2014@gmail.com | +63 968 277 8655 | <https://www.decitsolutions.com>

PROFILE

Senior IT and Full Stack Developer with over seven years of experience designing, building, and maintaining secure, high-performance systems. Skilled in backend and server-side development, DevOps, and cloud infrastructure, with a proven ability to ensure reliable deployments through automation, monitoring, and performance optimization. Technically versatile and results-driven, bridging development and infrastructure to deliver scalable, production-ready solutions.

SKILLS

Programming Languages: Python, Java, Nodejs, Go, Php, Javascript, C#, Bash/Sh, Clojure, Ruby, Perl, Scala, Haskell, C++, Objective-C

Web Technologies: Html, Css, JQuery

Databases & Storage: SQL, NoSQL, PostgreSQL, MySQL, SQLite, MSSQL, MS Access, MongoDB, Redis, RRDTool, TextFile Database

Frameworks & CMS: Laravel, Phalcon, Wordpress, Drupal

DevOps & Tools: Git, Cronjobs

Server & Infrastructure: Servers Fullstack, Nginx, Apache

Operating Systems: Linux, Unix, FreeBSD, Ubuntu, CentOS, Debian, MacOS, Windows

Networking & Security: IPFW, UFW, PF, IPTables

Messaging & Collaboration Platforms: RocketChat, Matrix Synapse

Mobile & Game Development: Android, IOS, Unity

CERTIFICATION

- SAP Business One
- Microsoft Office Specialist
- TESDA NCII – Computer Hardware Servicing
- TESDA NCII – Agricultural Crops Production

PROFESSIONAL EXPERIENCE

PROGRAMMER

Loki Technology, Inc. | 2018-2025 (Remote)

- Designed, developed, and maintained backend services and web applications using PHP, Node.js, and JavaScript, supporting production systems at scale.
- Managed full-stack server environments across Linux and Unix systems, ensuring security, stability, and high availability.
- Implemented server hardening, vulnerability patching, and access controls to proactively mitigate security risks.
- Monitored server and application performance through metrics, dashboards, and alerting systems, responding swiftly to incidents.
- Installed, configured, and maintained essential services to ensure continuous application functionality and uptime.
- Oversaw a live streaming web platform, ensuring reliability, performance, and uninterrupted service.
- Customized and extended open-source frameworks including Matrix Synapse, Flask, Falcon, Laravel, Twisted, and Express to meet specific project needs.
- Collaborated closely with cross-functional teams, managing multiple projects simultaneously and delivering production-ready solutions on time.

PROGRAMMER

Race Queen Inc. | 2015-2018

- Developed and maintained PHP backend systems for dynamic, database-driven websites using MySQL and PostgreSQL.
- Designed and implemented backend solutions aligned with project requirements, ensuring scalability, performance, and data integrity.
- Customized and extended open-source applications including WordPress, Drupal, Node.js services, FreeStyle Wiki, and RocketChat.

- Worked with multiple backend frameworks such as Phalcon, Laravel, Flask, Django, Twisted, and Express to deliver versatile solutions.
- Applied functional and multi-paradigm programming approaches using Clojure, Python, Haskell, and Scala where appropriate.
- Monitored project progress, tracked deliverables, and reported updates to management to ensure timely delivery.
- Managed and maintained VPN services (OpenVPN, L2TP/IPsec, PPTP), ensuring secure and reliable system connectivity.

IT Administrator

Kedica Philippines Corporation | 2011-2015

- Installed and configured SAP software, performing validation testing to ensure accuracy in transactions and reports.
- Conducted system backups and preventive maintenance to prevent downtime and data loss.
- Handled procurement processes, managed vendor relations, and ensured timely deliveries.
- Maintained inventory records and ensured compliance with PEZA purchasing standards.

EDUCATION

Bachelor of Science in Information Technology

College of the Immaculate Conception | 2007–2011
